GROUP 3600

56. (Added) A system for providing a purchasing incentive to a buyer over a computer network, comprising:

means for running a computer program through a website by the buyer via the network;

means for the computer program to access a product database, display a list of products from the product database to the buyer through the website, and receive a product selection from the buyer;

means for receiving buyer information indicating the geographic location of the buyer;

memory means for storing the product selection and the buyer information;
